

Welcome

With the fast-paced times of today, attending to needs besides your own can be an overwhelming challenge. It is even more difficult if you have to shuttle from one place to the next just to get the much-needed care, especially if the task of traveling becomes a threat to the patient's health.

Hospitalizations may be the first thing to come to mind when health issues are concerned, but studies have shown that hospital stays are not only astronomically expensive, it can also hamper the recovery of the patient, who is taken out of familiar surroundings and into cold, sterile hospital walls, far from the warmth of family and friends.

In such troubling times, **Continental Health Care, Inc.** is here to serve. We deliver the all around health care you need right within the comfort of your own home.

We are a well-established company with an excellent track record in regards to the quality of care services we deliver to our homebound clients. We are blessed with only the best nurses, therapists, social workers and caregivers who work diligently day and night to ensure that our clients are guided along the road to better health.

Employees-In-Service

We understand the importance of quality health care. That's why it is equally important to have quality health care professionals deliver much needed assistance to clients bound home either by illness, injury or age. Continental Health Care boasts a team of specialist with impressive credentials and who are genuinely concerned about our client's welfare. We have nurses, physical and occupational therapists, social workers, as well as caregivers ready at your beck and call twenty-four hours a day, seven days a week.

Potential employees go through a thorough screening process which includes background and criminal checks. They enjoy benefits and compensations for a job well done.
